FOLLOW THE LAST ROVER

The logo features a red octagon with white lines radiating from its center to the corners, resembling a stylized planet or a target. To the right of the octagon, the words "red", "Planet", and "3009" are stacked vertically in a bold, dark purple, sans-serif font.

# red Planet 3009

This is the story of a mission to the Red Planet. An adventure. A program. A simulation designed to explore a possible universe, to prepare us for life under different conditions and circumstances, and to project us into an experience we must be ready to face, perhaps sooner than we think.
