Arctic wildlife
Extreme environments
Climate change

CULTURES

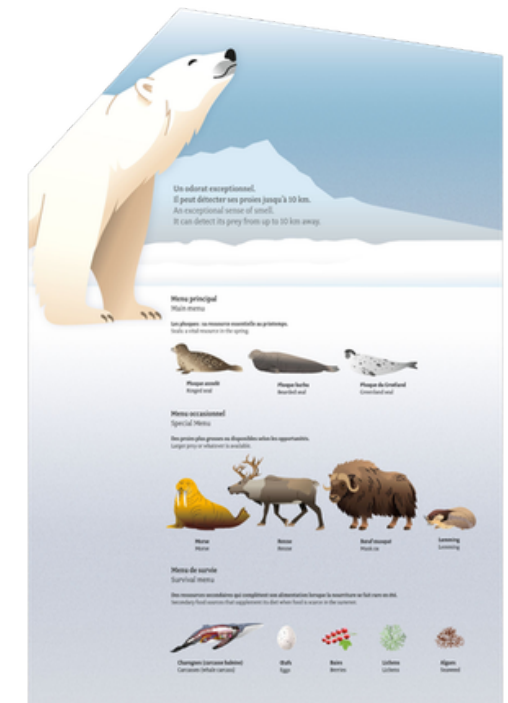

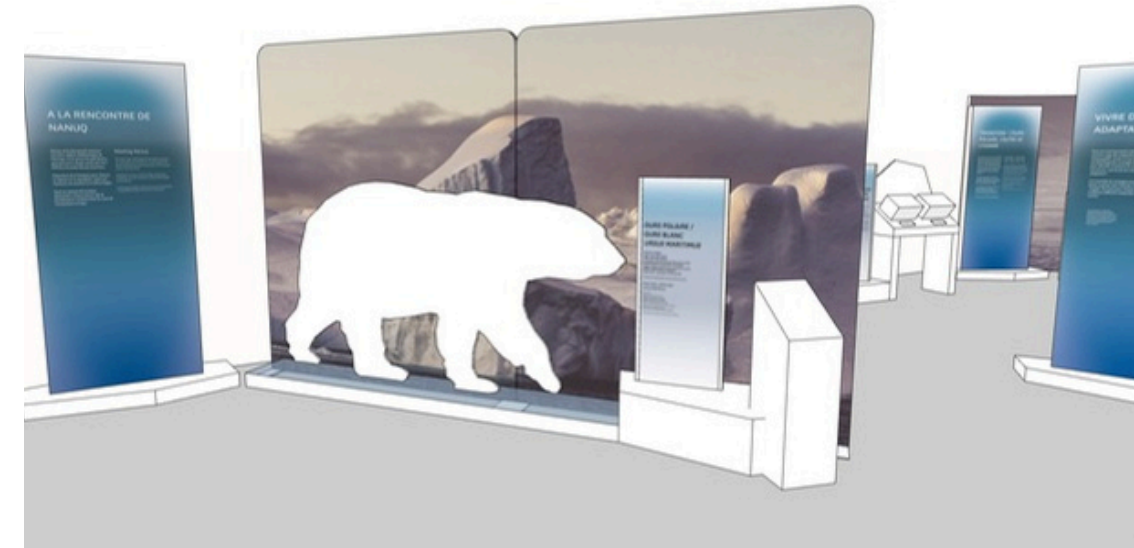

Inuit knowledge
Traditions & ways of life
Stories & cosmology
Human–bear relationships

THE HERO

MEET NANUK : ADAPTATION · SURVIVAL · CHANGE

- life-size polar bear cub sculpture
- skull casts of polar bear & grizzly
- hands - on “Adapted to the cold“
- camera-collar footage for wild bears.

A VISUALLY COMPELLING AND ACCESSIBLE EXPERIENCE

Large-scale scenic visuals immerse visitors from the moment they enter.

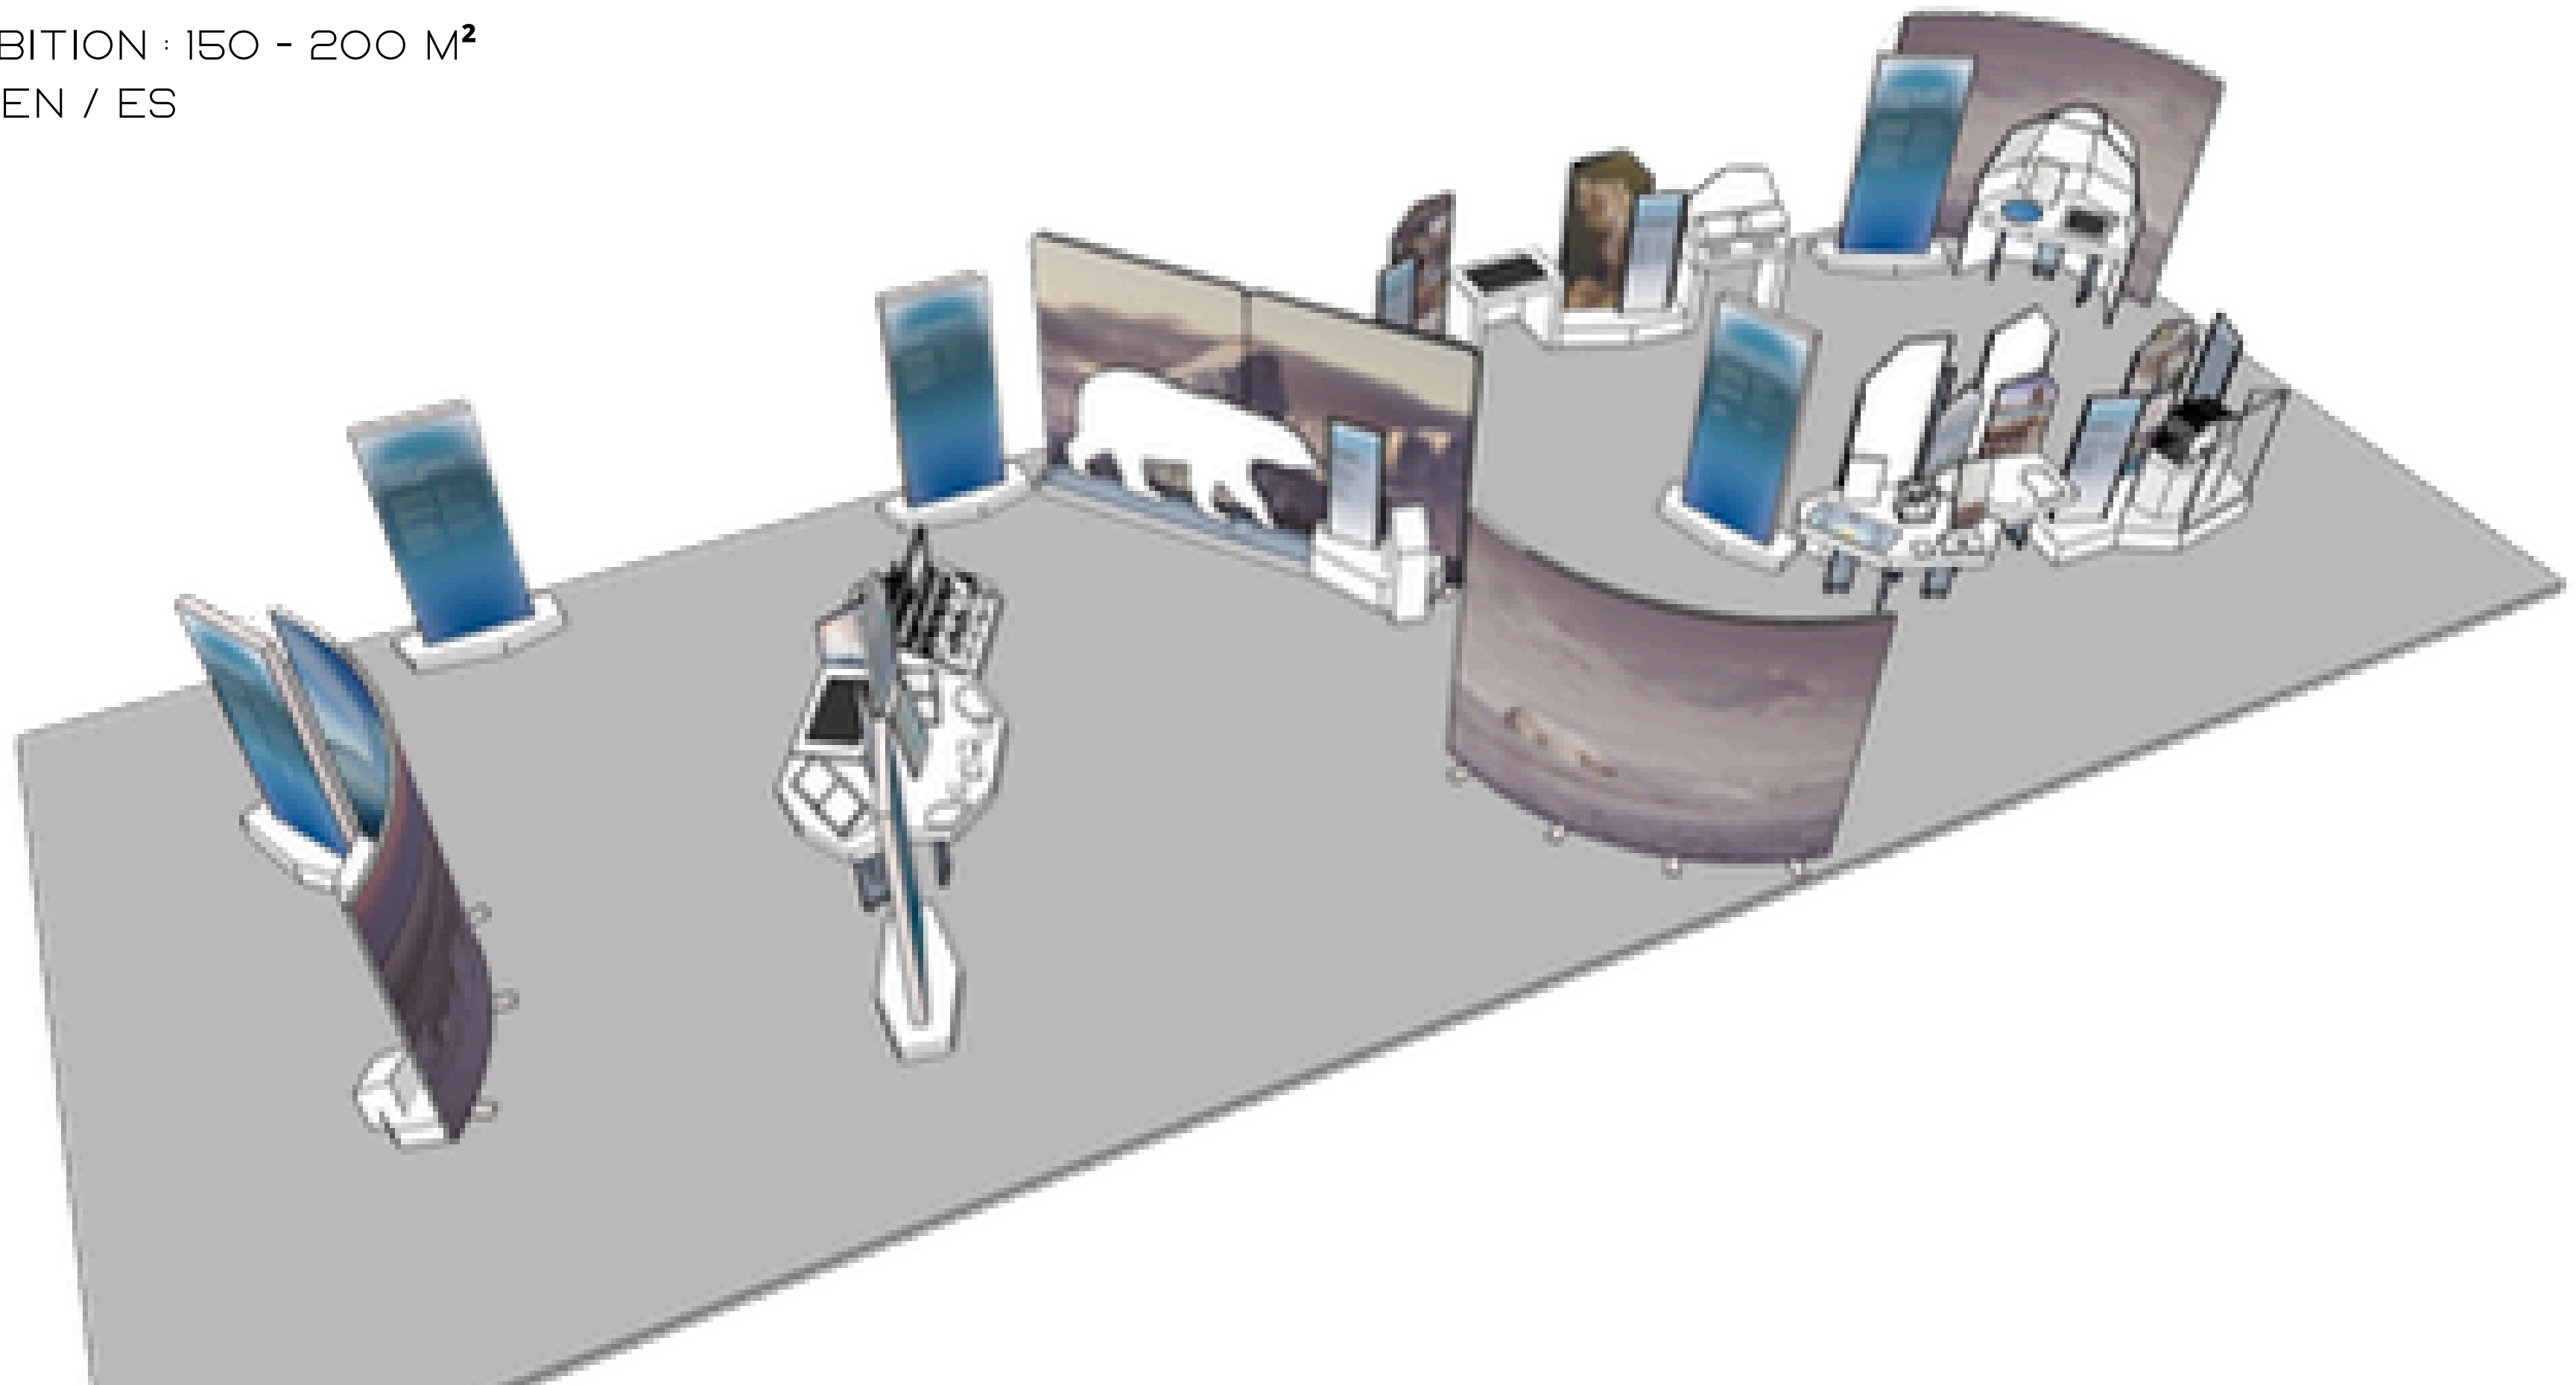

Clear, engaging interpretation supported by original illustrations, diagrams, and multimedia, ensures accessibility for all audiences.

A HIGHLY MODULAR EXHIBITION

EXHIBITION : 150 - 200 M²

FR / EN / ES

WHY HOST THIS EXHIBITION ?

An exhibition firmly rooted in the present, addressing the major challenges facing this region and its inhabitants.

- A partnership with **INUKSUK**, an association that promotes Inuit culture in France.
- **Interactive, hands-on** experiences and **original video content**.
- **Tactile exploration** of rocks present in the Arctic.
- **A two-player game** inspired by the classic “Guess Who?”[®], inviting visitors to discover the wildlife and plant life of the Arctic.
- Inuit cultural **objects** showcasing traditional craftsmanship.
- And much more...
